## Dr. Keusch Supports Boca Ballet Theatre: "A Princely Affair"

Boca Ballet Theatre has announced Dr. Cristina Keusch has been named honorary chair for its 15th annual fund-raising luncheon. "A Princely Affair," scheduled for **Sunday, October 15 at the Boca Raton Resort & Club**. "A Princely Affair" is the company's annual marquis luncheon and ballet performance.

Performances consist of excerpts from the season's productions and feature special guest artists. This year's luncheon will begin at 12pm.

**Luncheon tickets are \$85 per adult, \$45 for children 13 and under.**

Established in 1991, Boca Ballet Theatre is now the sixth largest dance company in Florida and one of the top 10 civic companies in the United States. It is the only civic ballet company with an intentional double focus: the public performance of classic and new ballet works featuring world class dancers, and a school for young dancers enabling them to perform with and learn from professionals.

**For more information or tickets, please call 561-995-0709 or visit the Web site at [www.bocaballet.org](http://www.bocaballet.org).**

## Back by Popular Demand: Sapphire 3 Day!

**Smoother, Younger Looking Skin is just a 30-minute Session Away!**

Monday, October 9 or Monday, November 6, 2006  
9am - 3pm**

**Receive all treatments for only \$150  
(Valued at \$500)**

Your 30-minute session includes:

- Skin complexion analysis •
- Sapphire 3 Photo Abrasion •
- Mini Chemical Peel •

**Space is Limited, so  
Call to Reserve your Appointment Today!  
Tel. 561-368-9455**

**Our most popular treatment is still  
Sapphire 3 Photo Abrasion Therapy!**

This high-impact facial utilizes a state-of-the-art machine in a 6-step process.

- 1 - A wand tightens the facial muscles with a gentle micro-current
- 2 - The face is gently exfoliated with a sapphire crystal head and LED light
- 3 - The exfoliation process is then repeated this time with a vitamin infused gel appropriate for your skin needs - wrinkles, age spots, or acne, or combo
- 4 - Lymphatic drainage removes toxins and waste to improve circulation
- 5 - Red LED light is applied to induce collagen production, elasticity and firmness
- 6 - Blue LED light is applied to produce oxygen in the cells and destroy bacteria (Blue LED light is now one of the most sought-after alternative solutions for treating mild acne vulgaris).

**Typical indications for the Sapphire 3 therapy include:**

Fine lines and wrinkles • Scars • Tightening Skin  
Hyperpigmentation • Acne • Hydrates dry skin  
Enlarged, clogged pores • Increase collagen production  
Anti-aging skin rejuvenation

**The skin is left glowing and patients experience a deeply relaxing state.**

## BLUE LIGHT THERAPY

In our never ending quest to rejuvenate the skin and treat unwanted signs of aging, sun damage, acne, and pigment changes, Dr. Cristina Keusch has introduced blue light photodynamic therapy using the BLU--U light source. This may be combined with photosensitizing agents for even greater benefit to the skin. Treatments take approximately 1 hour, are painless, and require little interruption of your daily schedule. Photosensitivity is to be expected following this treatment, and extra sun protection is advised for at least 48 hours. More than one treatment is generally required. Treatments may be spaced a few weeks apart.

## PREVAGE MD

Also, the Boca Raton Plastic Surgery Center would like to introduce PREVAGE MD, distributed only to physician's offices, as a highly powerful anti aging treatment for in-home use. This topical antioxidant has been shown scientifically to protect the skin against environmental stressors. The active ingredient, Idebenone traps and neutralizes free radicals to protect the skin. Although you may have seen PREVAGE at the local department stores, PREVAGE M.D. carries a higher concentration of Idebenone for superior benefit.
