NEWS IN THE BEAUTY BIZ!

Welcome Sara Levene ARNP, BC

Boca Raton Plastic Surgery Center proudly announces the addition of Sara Levene, ARNP, to its staff. Sara holds a Master of Science in Nursing from Florida Atlantic University, and received her undergraduate degree in Nursing from the University of Florida. She brings a wealth of experience in skin care, aesthetics and cosmetics, including years of training others in the field of laser technology.

"We are thrilled to have Sara on board to provide her expertise to our patients," says Dr. Cristina Keusch. "She is a welcome addition to our highly-skilled personnel."

Sara's background includes a special emphasis on Botox, fillers, sclerotherapy and laser technology - and she holds advanced certification in these areas. Sara is happily married to her husband whom she met in Gainesville while studying at University of Florida; they are proud parents to their cocker spaniel Bailey. Sara enjoys painting, drawing, shopping and practicing yoga in her spare time.

The *Fraxel Re:pair*™ Laser is Here! Don't Wait — Check it out Today

The Boca Raton Plastic Surgery Center is showcasing a breakthrough new solution for wrinkles and sagging skin. **Fraxel re:pair** treatment offers a younger appearance without surgery.

Dr. Keusch is one of the first physicians nationwide to offer the **Fraxel re:pair** laser, the most advanced skin rejuvenation treatment available on the market today.

"The results we are achieving with the **Fraxel re:pair** system are remarkable," said Dr. Cristina Keusch.

"Results of a **Fraxel re:pair** treatment approach the tightening and wrinkle removal that we normally see only after a facelift, with very few complications and limited downtime."

With the revolutionary new **Fraxel re:pair** laser treatment, patients receive:

- Smoother, tighter skin
- Reduced wrinkles and fine lines
- Improved tone and texture
- Softening of deep frown lines

All in a single treatment - with minimal discomfort and just a few days of social downtime.

"I recommend **Fraxel re:pair** treatment for patients who have deeper lines, wrinkles, loose skin, deeper scars, *acne scars* or *surgical scars,*" said Dr. Cristina Keusch. "Previously we did not have a treatment as effective as the **Fraxel re:pair** procedure for these more advanced conditions."

"Before my **Fraxel re:pair** treatment, my face was covered in brown spots and age lines. Now, the brown spots are gone, wrinkles are reduced, and my skin is tighter and feels much smoother," said a Boca Raton Plastic Surgery Center patient.

Fraxel re:pair treatment is the most advanced skin resurfacing procedure available to patients today. A result of more than two years of clinical testing by Reliant Technologies, the market leader in aesthetic skin rejuvenation, the **Fraxel re:pair** laser has received FDA clearance to treat wrinkles, fine lines, textural, pigment and vascular irregularities. It is backed by data from hundreds of treatments conducted at top clinical centers nationwide.
