DIPLOMATE AMERICAN BOARD OF SURGERY  
FELLOW AMERICAN COLLEGE OF SURGEONS

In anticipation of surgical treatment, the Boca Raton Plastic Surgery Center is following state and local guidelines recommending that COVID-19 testing be performed up to ten (10) days prior to surgery followed by self quarantine until the surgical treatment. It is important to be certain that your results will be available prior to surgery. At this time, the RT/PCR test is recommended. We have compiled a list of some testing centers locally. Also, we recommend that you speak with your internist for their suggestions.
